“ Dean was an exceptionally good man; honest, compassionate, wise and caring. I remember him as being passionate about the environment in the Pacific Northwest - especially around the Waldport and Tidewater area. He cared about the fish, the game, the waterways and all other aspects of life in that region. He was also passionate about his family. It has been a long time since we connected, but I am sure he had only grown even more wise since then. I feel honored to have known him. Condolences to his friends and family. I know he will be greatly missed.
